State, county and use tax if applicable, will be added to the invoice at time of billing.

Customer is responsible for supplying a valid sales tax exemption certificate at time of order if an exemption is claimed.

This proposal is valid for thirty (30) days from the date of issue and is subject to Inpro's Standard Terms and Conditions. Inpro reserves the right to adjust pricing during or after thirty (30) days based on current market volatility of raw materials.

If you choose to ship with a third party carrier, please add (2) two days to quoted lead times.

All custom and non-stocked products are not returnable. No returns after 60 days. If a return is authorized, a restocking fee based on the time elapsed will be charged in addition to the return shipping costs. Refer to InPro's return policy for details.

2% discount not available on credit card payments, shipping charges or PREPAY accounts.

Due to the volatility of freight rates, actual charges will be applied at the time of shipping.

Due to current supply chain volatility, our quoted lead times are estimated and may vary. Contact your sales representative at time of order to verify lead time.

Please see below for bid qualifications, terms and conditions.

Inpro's Estimators Qualifications - Please read:

- There is a discrepancy with PVC corner guard retainer type in this project. Spec. section 102601 identifies aluminum retainers; however, the part number listed is the #160BN, which comes with a vinyl Blunose retainer. This bid furnishes IPC's standard #160 series corner guard with an aluminum retainer. Contractor to verify prior to placing order.
- CG-1 stainless steel corner guard mounting type is not identified. This bid furnishes IPC's cement-on stainless steel corner guards. Contractor to verify prior to placing order.
- WP-1 and WP-2 rigid sheet typical installation height is not specified. This bid furnishes 4'x8' sheets to be mounted horizontally, to a maximum height of 48". Contractor to verify prior to placing order.
- Exclude CR-1 wall guard runs less than 6" in length.
- Exclude any patch to match existing finishes. Existing finishes are unknown.
- Elevations 9 and 10 on sheet 3A6-11 appear to identify non-standard trim and custom butt-joint angles (77° and 103°) for WP-1 rigid sheet. Any custom cutting to obtain these joints will need to be completed by the contractor in the field.
- Exclude WG-1 stainless steel wall guard runs at curved wall sections. This product cannot be bent. Also, exclude WG-1 stainless steel wall guard at runs less than 18", as these runs are too short for the product to be installed.
- Installation requirements were not provided for handrail/wall guard at inside and outside corners on this project. This bid includes IPC's standard returns and end caps terminating prior to all corner conditions.
- Exclude inside corner trim pieces at angles other than 90 degrees for sheet material. This bid includes matching #585 caulk for these conditions.
- WG-1 is noted on "all walls in service hall" per the returned shop drawings stamped 6/3/20; however, exact locations were not drawn out. This bid furnishes a double rail of WG-1 on all walls in the service hall, but the contractor will need to verify exact locations with shop drawings prior to placing order.
- WP-1/WP-2 wall protection system, as required in Corridor N216 by elevation 8/3A6-11, properties are unclear. This bid furnishes 4'x8' sheets of IPC's #405 series Palladium rigid sheet to be field-cut into custom shapes by the installer. Panels are to be glued directly to wall surface and finished with IPC's provided #585 color-matched caulk at all edges. Contractor to verify properties prior to placing order.

Inpro's Qualifications:

- Standard Payment Terms: 2% 10 Days/Net 30 – No Retention. Terms subject to change at Inpro's discretion.
- State, County and City tax, if applicable, will be added to the invoice at time of billing.
- Prices are firm against escalation for shipments made within six (6) months from acceptance of purchase order/contract. Orders shipped after six (6) months are subject to escalation of 1/2% per month, or partial month thereafter, to be added to invoice at the time of shipment. Inpro Corporation reserves the right to change credit terms based on customer's financial conditions during the escalation period.
- Custom products require written confirmation prior to placement of order. Due to the nature of custom products, materials are non-returnable/non-refundable. This includes all competitors matched colors. Orders for custom product/colors cannot be canceled.
