La Crosse: Vision and Goals

Vision: La Crosse is a city where students and families walk and bike to school because it is safe, convenient, and healthy. The City's investments in infrastructure, projects, and programming are distributed to the neighborhoods and schools that need them most.

Goals:

Engineering: Build streets that are designed to lower vehicle speeds and communicate caution to drivers. Prioritize safety for people walking and biking over convenience for people in motor vehicles. Build projects that will benefit many people and students.

Education: Implement effective education in a variety of settings so that children know how to walk and bike safely, and parents and neighbors know how to drive safely.

Enforcement: Engineering projects naturally reduce speeds and improve safety near schools, lowering the need for enforcement.

Employ law enforcement sparingly, and for education, not punishment.

Encouragement: Every school will have a culture that promotes walking and biking as the safe, easy, and healthy choice.

Evaluation: Performance will be measured and tracked against the established vision and goals.

Adjournment

Notice is further given that members of other governmental bodies may be present at the above scheduled meeting to gather information about a subject over which they have decision-making responsibility.
