

April 1, 2023

We the below signed home owners say no to rezoning the neighborhood. We do not want multi dwelling in our neighborhood. Our neighborhood was only single family homes and it was nice. A nine or twelve unit is too many people + to many vehicles in the lot lots. It would cause a lot of noise & problems. We could consider a duplex then when you said rezoning would bring our neighborhood back to the way it was, that was not true. Our neighborhood was single family homes etc time to be honest with the home owners. We are all tax payers and what we want should matter. Razing those lots will probably cause flooding & damage to the existing homes near these major lots.
