To be filled out by requestor and submitted with the Project Application Form (not submitted separately). Please select one column and one row to determine your project's priority and record the outcome at the bottom of the Project Application. (i.e. AI, AII, BII, CIII, DII, etc)

CRITERIA			Priority	
		HIGH	MEDIUM	LOW
Health/Safety/Welfare	A	I	I	II
Maintenance/Replacement	В	I	II	II
Continuation of Existing Program	С	II	II	III
New Program	D	II	III	III

HIGH

- Project is mandated by local, State or Federal regulations
- Project is a high priority of the Common Council, based on the most current Comprehensive Plan or other subsidiary plans
- Project prevents irreparable damage to existing facilities
- Project leverages local funding with other non-local funding sources
- Project finishes a partially completed project

#### MEDIUM

- Project maintains existing service level
- Project results in increased efficiency
- Project reduces operational costs
- Project significantly reduces losses in revenue or provides for significant increased revenues

#### Low

- Project provides an expanded level of service or new public facility
- Project is deferrable

Four project criteria are then evaluated to help separate projects with greater "need," like Health and Safety issues as compared to new projects that might be more "desired" than "needed." The four project criteria are summarized as follows:

### A. HEALTH/SAFETY

- Capital projects that protect the health and safety of the City, its residents, visitors and employees
- B. MAINTENANCE/REPLACEMENT
  - Capital projects that provide for the maintenance of existing systems and equipment
- C. CONTINUATION OF EXISTING PROGRAMS
  - Capital projects which enhance the existing systems and programs allowing continuation/expansion of services

To be filled out by requestor and submitted with the Project Application Form (not submitted separately). Please select one column and one row to determine your project's priority and record the outcome at the bottom of the Project Application. (i.e. AI, AII, BII, CIII, DII, etc)

CRITERIA			Priority	
		HIGH	MEDIUM	LOW
Health/Safety/Welfare	A	I	I	II
Maintenance/Replacement	В	I	II	II
Continuation of Existing Program	С	II	II	III
New Program	D	II	III	III

HIGH

- Project is mandated by local, State or Federal regulations
- Project is a high priority of the Common Council, based on the most current Comprehensive Plan or other subsidiary plans
- Project prevents irreparable damage to existing facilities
- Project leverages local funding with other non-local funding sources
- Project finishes a partially completed project

#### MEDIUM

- Project maintains existing service level
- Project results in increased efficiency
- Project reduces operational costs
- Project significantly reduces losses in revenue or provides for significant increased revenues

#### Low

- Project provides an expanded level of service or new public facility
- Project is deferrable

Four project criteria are then evaluated to help separate projects with greater "need," like Health and Safety issues as compared to new projects that might be more "desired" than "needed." The four project criteria are summarized as follows:

### A. HEALTH/SAFETY

- Capital projects that protect the health and safety of the City, its residents, visitors and employees
- B. MAINTENANCE/REPLACEMENT
  - Capital projects that provide for the maintenance of existing systems and equipment
- C. CONTINUATION OF EXISTING PROGRAMS
  - Capital projects which enhance the existing systems and programs allowing continuation/expansion of services
