

To Whom It May Concern:

We are writing you in regards to the new fence being built at your establishment, Sloopy's Alma Mater. For the two years that we have lived in this neighborhood, we have seen little to no improvements done to the neighborhood, even though La Crosse is a booming and growing city. It is refreshing to see an establishment so close to us taking the time and using their resources to make our part of town a little more enjoyable for everyone. The old fence was dreary, run down, and depressing to look at. This new one not only looks better, but is much more inviting to those in our area. We would like to thank you for the new renovations and, once the fence is finished, we look forward to enjoying a cold one in the area. Keep up the good work!

Sincerely,

Your Neighbors

To Whom It May Concern:

As the property owner of 163 Copeland Avenue La Crosse, WI, known as Sloopy's Alma Mater, I believe the wood fence in the rear of the property is a large improvement from the old broken plastic fence that was there prior. The new fence is much stronger than the previous plastic fence and will withstand any elements that come into contact with it. It will also provide greater privacy for both the customers and the neighbors versus a plastic fence.

The new wooden fence will only add to the overall remodel while preserving the historic atmosphere of La Crosse as put into place by the grant issued last year.

Sincerely,

Shane Wehrs
