## OBJECTION TO AMENDMENT OF ZONING DISTRICT BOUNDARIES For a Planned Development District

| 2008, 2012, 2018, 2024 Campbell Rd   | 225-227, 231,303,307 21 st St North   |   |   |
|--|---|---|---|
| from the Single Family   | District to the Trace   | litional Neighborhood   | District.   |
| I object for the following reason  | n(s): This area is already overpopulated                                      | l as the landlords have not been a                                    | accountable for                                       |
|  | 21 st St N is the main thoroughfare for En                                    |   |   |
| guard is on 21 st and Main st. Parking   | is already an issue and often the Emers                                       | on children have to go on the stre                                    | et as cars often                                      |
| block the sidewalk. The integrity of the   | e neighborhood needs to be maintained,  | f you change the zoning it will cor                                   | ntinue to destroy                                     |
| neighborhoods as it has on the West s  | side of UWL's campus and threatens the  | Northeast side of campus. With the                                    | his rezoning there                                    |
| will be an increase in refuse, parking a   | and potential crime issues. I have been a                                     | taxpayer for over 40 years and m                                      | naintained my   |
| home which is no newer than the ones   | s listed above, a more important question                                     | is why haven't they been maintain                                     | ned?  |
