Park Board Commissioners

City of La Crosse Parks Department
400 La Crosse St.
La Crosse, WI 54601

Dear Park Board Commissioners,

We are writing on behalf of Indivisible La Crosse seeking your support in working toward achieving healthcare for all. Indivisible La Crosse recently held a demonstration at Cameron Park with the goal of gathering like minds to show our legislators that the citizens of our compassionate community are committed to an overall goal of equal rights to healthcare. We live in a time when somehow, health coverage has become a controversial issue, when our leadership has chosen to support private business interests in a for profit healthcare industry over human lives. To Indivisible La Crosse, this is not acceptable.

Our April 1st demonstration garnered attention from several local media outlets as well as that of legislators. To forward our interests and those of the greater community, Indivisible La Crosse intends to continue this effort through a follow up March for Health on July 8th at Cameron Park. Our goal is to show our elected leaders that our commitment to justice in healthcare will not fade.

We have reserved the park for the afternoon and are asking kindly that you consider waiving the reservation fee so that we might reach toward our goal without seeking funds from private individuals. Indivisible is a non-partisan, non-funded organization run by local citizens committed to positive change for the greater good. We greatly appreciate your support and are grateful for your consideration.

Sincerely,

Lenora Parr & Jennifer Dodson

Co-Organizers, March for Health
