Patti

We are requesting to appear before the board to gain permission to put in a handicap access area at 111 9th Street North. The Board of Public Works approved our request this morning and we were told that since we were covering a grass area of the boulevard, we need the Park Commission approval.

I have attached the architect drawing as well as a rendering of how the project will look when finished.

Please let me know if there is anything else the board needs prior to our attendance at the meeting.

Thanks

Tim Donahue
