

Riverside Park Band Stand Cover Donor Recognition Brick Paver Program

This is simply a preliminary design of what the paver layout could look like. The final design will be determined by the quantity of donates received at each funding level as well as how the paver design fits within the final layout of the pavement area near the band stand and shell. Placement of individual bricks will be at the discretion of the installer. All of this will be achieved in cooperation with the City of La Crosse Parks & Recreation Department and the Park Board Commissioners.
