Federal Contract Tower Program Increases Its Influence on the Air Traffic Operations

Operations at the nation's 254 Federal Contract Towers (FCTs) accounted for 28.6 percent of all aircraft handled by air traffic control during FY 2018. Nationally, aircraft operations rose 3.7 percent over FY 2017 to 51.8 million. Of that, FCTs accounted for 14.8 million operations.

The busiest FCT during the period was again Phoenix Mesa Gateway (IWA) which almost cracked 300,000 operations from the previous year and making it the 32nd busiest airport in the country. The next busiest FCT in FY 2018 was North Perry Airport (HWO) in Hollywood FL with a remarkable 29.8 percent increase over 2017, mostly from local operations which suggests flight training. HWO jumped 10 places to become the 36th busiest airport among all ATCTs.

The newest ATCT added to the FCT program was North Texas Regional Airport (GYI) in Grayson County, Texas. With the 6-year moratorium on Benefit/Cost (B/C) determinations lifted by congressional legislation, the next ATCT soon to be added to the program include Rickenbacker International Airport (LCK) in Columbus OH and Hammond - Northshore Regional Airport (HDC) in Hammond, LA. Several other airports also received notices that their B/C had been calculated to be over 1.0 and are official considered candidates for the FCT program. The recent FAA Reauthorization legislation also provided a streamlined B/C determination process as well as giving control tower projects "priority consideration" for access to AIP discretionary money for the first time through the Small Airport Fund.

About Quadrex

Quadrex Aviation provides comprehensive professional planning and development services for airports participating or interested in the FAA's Federal Contract Tower (FCT) program. Services include:

- FCT Benefit/Cost Analyses for New Starts and Cost-Sharing ATCTs
- ATC Development & Funding Strategies
- Site Selection & Comparative Site Analyses (CSA)
- Safety Risk Management (SRM) Assessments
- ATCT/Navaid Obstruction Studies
