

Dear Kat Barkhahn,

We had spoken a week or so ago about presenting a topic to the Board of Park Directors on April 18th at 5:30pm. As a club, Student Occupational Therapy Association would like to donate a piece of adaptive equipment to a park in the city of LaCrosse. The purpose of our donation would be to provide a piece of equipment in order to make the park more easily accessible and enjoyable to individuals of all abilities. As of right now, we do not have a specific piece of equipment in mind. nevertheless, we wanted to reach out to the Board to see if there is a park that needs more attention and could benefit from our donation. Our club is thinking of items along the lines of swings, benches, and/or playground equipment depending upon the needs of our community.

We are particularly excited to partner with the Board to make a profound difference in the LaCrosse Community.

The individuals attending would include Alex Mrotek and I (Shelah).

We appreciate your time and attention.

Shelah Hierlmaier

Occupational Therapy Assistant Student

Western Technical College
