

## **1. ORA's Socially Responsible Cleanup Initiative**

- Would like approval for ORA to start promoting the Socially Responsible Cleanup which references pitching in and clearing up our local public lands in a safe, socially distant manner. We've included a list of protocols to be followed for trail work and trail cleanups to proceed in a way that deters groups gatherings but keeps community members involved. This is taking the place of the large group trail work volunteer day "The Grand Cleanup", held in the past but is currently inappropriate due to COVID-19 measures.
