

From the Offices of the Traffic Engineer
and the Chief of Police
City Hall

**CITY OF LA CROSSE
BOARD OF PUBLIC WORKS
Findings & Orders:**

June 24, 2020

(X) ESTABLISHING

() AMENDING

() VACATING

TYPE OF ALTERATION: 2-way YIELD control, requiring North-South traffic to yield

GENERAL LOCATION: Intersection of East Avenue & Mississippi Street

Report:

A request was received to investigate traffic control at the intersection of East Avenue and Mississippi Street, which is currently uncontrolled. Conditions, including sight distance, crash history, traffic volume, and road classification, do not warrant STOP or YIELD conditions per existing criteria.

However, the traffic control at neighboring streets (16th, 17th, 19th, 20th, 21st, 22nd & Mississippi) creates an expectancy of traffic control. To establish guidance at the intersection, the Board of Public Works could approve a 2-way YIELD control. It would be recommended that the signs be arranged for North-South traffic to yield to East-West traffic.

WHEREAS, Section 44-39 of the City of La Crosse Municipal Code of Ordinances provides that after obtaining a report and recommendation of the Traffic Engineer, the Chief of Police shall forward recommendations and appropriate orders to the Board of Public Works.

AND WHEREAS, the Findings of the Traffic Engineer state the public interest, convenience, and necessity, the Chief of Police hereby Orders the above traffic alterations, to wit:

- YIELD signs at East Avenue & Mississippi Street, requiring North-South traffic to yield

NOW, THEREFORE, the Board of Public Works hereby approves the aforementioned traffic alteration, and City staff is hereby authorized to effect said changes.

Matthew A. Gallager
Deputy Dir. Engineering & Public Works

Shawn Kudron
Chief of Police
