Xcel Energy received notice of the variance request at 1524 Island Street, to exceed height requirements of city regulations.

Xcel has both distribution and transmission facilities on or near the property. As long as the proper distances from any of our wires, both during construction and in final state, Xcel Energy raises no concern. Also, where Xcel has placed easement on the property, there should be no buildings without our expressed written permission.

Thank you for the opportunity to comment.

**Cameron Bump**
