Update on Sustainable La Crosse Website - Van Maren
11/3/2017 Update: Cathy has put together a rough website demonstration page at <https://suslax.blogspot.com> with suggestions for updating www.sustainablelacrosse.org. It is one idea of how to update and help people find pertinent info a little more easily. She only spent a short time on it using one of their standard templates. The pages are not filled with actual info and links. The Board could replace the header, too, if redoing the page. Cathy would like to volunteer to continue work on updating that page with whoever is responsible for maintaining it.
