Proposed Fiber Entrance

TYPICAL INFORMATION REQUIRED FOR HIGHWAY PERMIT APPLICATION

CROSS SECTIONS

Typical depth(s) of longitudinal facilities occupying highway right-of-way.

Typical depth(s) of perpendicular facilities occupying highway right-of-way.

Notes : The distances from centerline are indicated on the staking sheets (plan views) for the areas involved with construction. See the Key Map for general locations of construction corridors. Clean up for the construction process will commence immediately and be completed no later than 10 working days later. Depths reflect *minimums* for copper and fiber cables. Actual placement depths may vary depending on contract requirements.
