Subject: Petition for rezoning my house on 211 Caledonia Street, La Crosse WI

To whom this may concern,

I recently went to the state building to look into registering my house as a rental property only to find out that my house is actually in a zone that does not allow single family homes to become rentals. I hope to be allowed an exemption considering the situation i am currently in and to the fact that I am not doing so out of necessity. I have recently relocated to Shakopee, MN for my job and in order to move down here right away my girlfriend and I decided to have her sublease her apt so she could rent out my house. I didn't realize the new requirements put into place until it was too late. I can't afford the time or money to try to sell my house while I am in Shakopee. My girlfriend is also over 3 months pregnant now which also is a huge factor in the needing to be able to rent out my house so that we can be together to take care of the baby. I humbly ask that you please consider my petition and thank you for your consideration.

Thank you

Justin Brown
