Re: File #24-0701

Dear La Crosse City Council members,

As a southside La Crosse city resident, I would like to encourage you to support resolution File #24-0701. Non-renewal of this lease will create a great hardship for the six families affected being asked to remove their homes from this property.

The original decision to evict these families with no input from the affected parties is unacceptable. Removing these homes will place a financial burden on these families, especially given the little notice and lack of due process. The costs associated with removing these homes, if possible, is something the parties have not planned for.

I urge you to support this resolution to give these families additional time to resolve this situation in a fair manner.

Sincerely,

Jeff Robinson
