<b>Comment</b>	Dropped at M&J  C.H.I offers standard powder coating options which is the colors in the base bid and then they offer RAL powder coat options which include additional upcharges, I can work on pricing out the RAL powder coat options today and let you know what that cost difference is if they want red.

**CONTRACT CHANGE ORDER**

No. 2

Date 7-27-22

Contract No. BLDG-2021-64.06 for the following public work: La Crosse Fire Station #2 Project between B&B Electric, Inc. and the City of La Crosse, dated January 6, 2022, is hereby changed in the following particulars, to-wit:

The following specific work is hereby eliminated from such contract:

**None** **\$ 0.00**

The following specific work is hereby added to such contract:

**CE #008 CT Cabinet Location (RFI #BB-08)** **\$ 19,334.00**  
**CE #014 Door Access for Door 108-2 (RFI #BB-11)** **\$ 1,377.00**

By virtue of such changes in the contract, the following revisions shall be made in the contract price:

Contract Price -----	\$ 484,846.00
Contract price decreased by eliminations -----	\$ 0.00
Contract price increased by additions -----	\$ 20,711.00
Net <del>Deductions</del> or Additions (Strike out one) -----	\$ 20,711.00
Revised Contract Price -----	<b>\$ 505,557.00</b>

Equal opportunity employer

**B&B Electric is pleased to provide a quote on the following electrical project:  
La Crosse Fire Station #2  
CE008: RFI BB-08 CT Cabinet Relocation**

**Price Includes:**

- **Deduct: Raceways and trenching from La Crosse Street manhole to transformer for Utility’s primary to transformer**
- **Deduct: Raceways from transformer to original CT cabinet location as shown on the drawings**
- **Deduct: 800A wall mounted CT cabinet**
- **Add: Conduit and wire from relocated CT cabinet to 800A main service disconnect**
- **Add: Provide and install precast concrete transformer pad and vault per Xcel requirements for the transformer and pad mounted CT cabinet to sit on**
- **Add: 800A pad mounted CT cabinet**

**Not included:**

- **Sales tax**

<b>Add for new CT location (material) .....</b>	<b><u>\$13,409.00</u></b>
<b>Add for new CT location (labor).....</b>	<b><u>\$8,835.00</u></b>
<b>Deduct for original design (material) .....</b>	<b><u>(\$2,278.00)</u></b>
<b>Deduct for original design (labor) .....</b>	<b><u>(\$632.00)</u></b>
<b>Total .....</b>	<b>Add <u>\$19,334.00</u></b>

It is the Owner’s responsibility to provide the wire after the CT cabinet. Because the CT cabinet is being relocated adjacent to the transformer, those wire runs become considerably longer. Xcel also requires a transformer pad with an underground vault (cable chase) when the transformer and CT cabinet are next to each other on the same pad.

Thank you for allowing B&B Electric to provide you a quotation for this project. If you have any questions or concerns, please contact me at 715-577-4392.

Sincerely,

Kevin Kuderer  
B&B Electric, Inc.

**SPECIFICATIONS**

- CABINET** is free standing NEMA 3R. Frame is 12 gauge steel galvanized steel bolted together and includes leveling provisions. All side plates are pan formed galvanized steel and are bolted to the frame with tamper-resistant zinc plated bolts. Enclosure is primed and painted transformer green enamel.
- SUPPORTING STRUCTURE** for bus bars is bolted to framework such as that any phase bar can be relocated vertically as required to meet job requirements.
- BUS BARS** are electrical grade plated aluminum # 6101T65 per ASTM specifications # B317 supported on 17" centers using double glastic insulators. Copper bus available on special order. Current density is 750A/square inch maximum for Aluminum bus and 1000A/square inch maximum for Copper bus. Each bus bar is punched with 5 sets of 9/16" square holes on 2" horizontally and 1 3/4" centers vertically.
- RATING** is 800A at 600V maximum 3Ø-4W, 3Ø-3W, 1Ø-3W. All cabinets with single bus bar configurations (800A) shall be braced for 50,000A RMS amperes short circuit current rating. All multiple bus bars configuration shall be braced for 85,000A RMS amperes short circuit current rating.
- CONNECTORS** in a range of #2 to 750 MCM are available in set screw type or compression type for field or factory installation. Connectors will be factory installed on right side of bus unless otherwise specified. Up to (10) - 750MCM or (20) - 250MCM conductors can be installed on each side, per bar.
- ADJUSTABLE THROATS** painted transformer green are available to connect to CTC cabinet to the Power Company's transformer. The standard dimensions are 12H"x 12W" adjustable in length from 12" to 23". Other sizes are available on special orders.
- MEETS STANDARDS**
  - ETL listed and labeled conforms to U.L standard 1773 termination boxes
  - Conforms to NEMA standards
  - Meets National Electrical Code requirements
  - Meets Power Company requirements

Dennis

Looking for a price on this Xcel pad and vault. Can you turn something around ASAP on this please?  
Pretty much their standard smaller pad and vault.

Thanks

Kevin Kuderer

## SECONDARY CONNECTION CABINET AND TRANSFORMER POURED-IN-PLACE PAD 15 & 25 kV for 75-500 kVA In-Line Orientation-Preferred

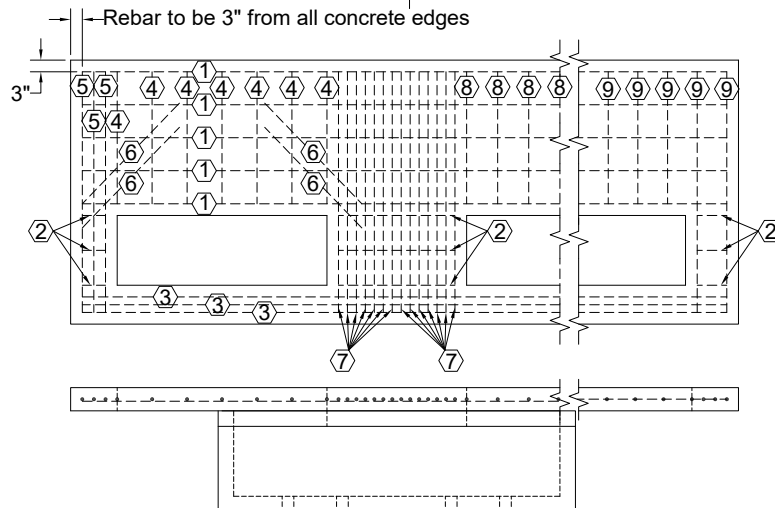

15 & 25 kV 75-500 kVA	PAD DIMENSIONS (DIM)							REINFORCED STEEL SCHEDULE									
	A	B	C	D	E	F	T	X1	①	②	③	④	⑤	⑥	⑦	⑧	⑨
78" See note 1	68"	54"	12"	18" Min	36"	6"	Bal of SCC width		5-#4	3-#4	3-#4	7-#4	3-#4	2-#4 x 3'0"	14-#4	4-#4	#4

**Rebar Notes:**

- 1) Rebar schedule #8 is per customer chosen SCC footprint width
- 2) Rebar schedules #1,2, & 9 (SCC side) is per customer chosen SCC footprint width.

**Pad Notes:**

1. DIM A is maximum transformer width placed on 54" window per transformer barrier wall.
2. DIM E is SCC window at 18" minimum for secondary cable leads. DIM X1 is for the balance of the customer chosen SCC footprint width. X3 is customer required quantity of ducts.
3. Match Points for cable tray in transformer window aligns with the 4" wall into the Primary cavity & flush with Secondary cavity at the transformer barrier wall.
4. Top surface of cable tray will be installed at a depth consistent with the Pour-In-Place transformer pad final grade including soil compaction requirement at 95% Standard Proctor.
5. Two 6" - 36" radius conduit elbows for primary cable to extend 3' beyond the front edge of transformer pad.
6. Concrete shall have a minimum compressive strength of 3000 psi at 28 days. All concrete shall be air entrained (4% to 6% by volume) with a maximum W/C of 0.45.
7. Reinforcing steel shall be furnished in accordance with ASTM A615 Grade 60. Place per schedule within the limits shown. All reinforcing steel shall be uniformly tied to reinforcing steel to prevent displacement during concrete placement.
8. Top surface finish shall be level. Wood float top; do not leave any depressions.

Resolution and report of the Board of Public Works on the costs of operating and maintaining the parking system in downtown La Crosse.

## RESOLUTION

WHEREAS, the Board of Public Works of the City of La Crosse held a public hearing on Monday, August 1, 2022 at 10:00 a.m. for the purpose of hearing all interested persons concerning the preliminary resolution and report of the Board of Public Works on the costs of operating and maintaining the parking system in downtown La Crosse for the assessment district which is set forth in the legal description attached hereto, and has heard all persons desiring audience at such hearings along with considering any objections to the special assessment district.

NOW, THEREFORE, BE IT RESOLVED by the Common Council of the City of La Crosse as follows:

1. That the report of the Board of Public Works pertaining to the costs of operating and maintaining the La Crosse downtown parking system from September 1, 2022 through August 31, 2023, including a credit for revenue from the parking system within the proposed district boundaries is hereby adopted and approved.
2. That a portion of the payment for the costs of operating and maintaining the downtown parking system be made by assessing the sum of \$146,029.78 to the property benefited as set forth in the schedule of benefits in said report.
3. That the benefits shown on the report are true and correct and are hereby confirmed.
4. That the assessments shall be placed in full on the 2022 tax roll and payable no later than January 31, 2023. Assessments not paid when due shall bear interest on the amount due at the rate of one percent per month from February 1, 2023, and may be subject to an additional penalty imposed by the County.
5. The City Clerk is directed to publish this resolution in the official newspaper for the City of La Crosse.
6. The City Clerk is further directed to mail a copy of this resolution to every property owner whose name appears on the assessment roll whose post office address is known or can be ascertained with reasonable diligence.

BE IT FURTHER RESOLVED that the Board of Public Works is further authorized to take all steps necessary to implement the downtown La Crosse parking assessment plan, including the expenditure or appropriation of sums in connection therewith.

BE IT FURTHER RESOLVED that after receipt of information from property owners concerning the downtown parking assessment, the Finance Director is hereby authorized to adjust the final and respective assessment figures accordingly provided the same does not vary materially from the estimated amount.

BE IT FURTHER RESOLVED that the City Clerk shall notify in accordance with Wisconsin Statutes Section 66.0703 all property owners of the final assessment figure.

# PARKING DISTRICT BOUNDARY

REVISED 4/12/2019

## Parking Enterprise

### Description/Services:

The Parking Utility is managed by a Parking Coordinator who works directly with the Assistant Police Chief. The Parking Utility has two responsibilities, the enforcement of all parking regulations within the City and the operation of all City-owned parking facilities. The enforcement division is responsible for the enforcement of all parking rules and regulations on approximately 225 miles of city streets. This work is done through a staff of Civil Service Employees (CSE’s) who are tasked with the enforcement of parking violations. Office support staff process data entry and revenue collections. The grounds division of the Parking Utility is responsible for the operation of all the municipally-owned ramps and surface lots. These include the Market Square Ramp with a total of 632 spaces, the La Crosse Center Ramp with a total of 893 spaces, the Main Street ramp with a total of 395 spaces, the Riverside Ramp with a total of 903 spaces, and the Pine Street ramp with a total of 606 spaces. When you add in the surface lots, the Parking Utility manages almost 4,000 parking spaces. In addition, the Parking Utility manages downtown on-street hourly parking to ensure customer turnover for downtown businesses.

### 2021 Accomplishments/Highlights

1. Enhanced Parking Utility webpages and social media connection with the parking customers.
2. Re-painted all levels of all ramps for color consistency.
3. Acquired contractor/trade vehicle permitting for on-street contractor parking.
4. Implemented collections services for unpaid out of state citations.
5. Completed meetings with Neighborhood Associations on pay to park zone/parking benefit districts.

### 2022 Goals

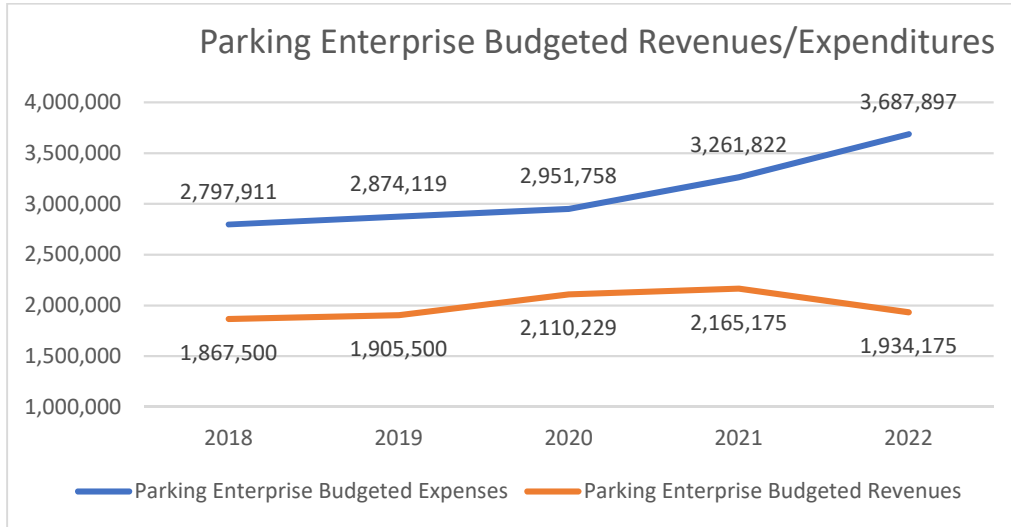

1. Install counting system in parking ramps to enhance parking experience.
2. Improve directional exit signage and level signage in parking ramps.
3. Install additional security cameras in parking ramps.
4. Increase on-line reservations for parking during events at La Crosse Center
5. Promote informational videos on parking system.

Performance Measures	Projected 2021	2022 Goal/Benchmark
Parking Citations	32,865	45,000
Ramp Permits	1,820	2,000
Ramp Security Patrol Hours	2,600	2,920
Citation Collection rate	92%	95%
Contactless Transactions	36,509	55,000
Pay Station Transactions	65,157	60,000

Sanitary District No. 1 Charges

For the year July 1, 2021 to June 30, 2022

07/25/22

	Current Year's Empty Lot Rate	Current Year's Connection Rate	Last Year's Empty Lot Rate	Last Year's Connection Rate
Bond Redemption	0.00	0.00	0.00	0.00
Maintenance	32.38	32.38	33.50	33.50
Operation	80.25	80.25	78.84	78.84
Sewage Treatment	0.00	106.74	0.00	110.85
Totals	\$112.63	\$219.37	\$112.34	\$223.19

**SANITARY SEWER DISTRICT #1**

The Sanitary Sewer District #1 is comprised of approximately 300 parcels located within The Town of Shelby. Parcels ranging from Ward Ave to Bluffside Dr to Oak Dr.

Each parcel located within the district shares equally in the charges for operation and maintenance for the district. Sewage treatment charges only apply to a parcel when there is an actual connection to sewer.

**OPERATION AND MAINTENANCE:**

Each parcel has a minimum of one charge for operation and maintenance. If the lineal feet (LF) of the parcels' frontage exceeds 60 LF there may be an additional charge. For example:

A parcel having 185 LF of frontage would be charged for 3 charges of operation and maintenance.  
 A parcel having 65 LF of frontage would be charged for 1 charge of operation and maintenance.

Operation charges are calculated based on administration costs of the district (salaries, postage, supplies, etc).

Maintenance charges are calculated based on maintenance costs of the district (cleaning of mains, minor repair costs, etc).

**SEWAGE TREATMENT:**

Each parcel connected to sewer has a minimum of one charge for sewage treatment.

**If residential the charge is calculated as follows:**

Average cubic feet per water usage	15.0000	cubic feet
X Usage charge per quarter	<u>1.5200</u>	
Sub Total	22.8000	
+ Service charge per quarter	<u>15.0000</u>	
Sub Total	37.8000	
X Number quarters per year	<u>4</u>	
Sub Total	151.2000	
+ Lift Station Cost	10.5900	
- Mtce	(32.3800)	
- Water Dept Svces	<u>(22.6700)</u>	
Net Residential Sewage charge	106.74	

**If Commercial the charge is calculated as follows:**

The City of La Crosse Water Department will calculate the average usage of water based on either the property having a meter (the sewer usage will be based on actual usage then) or it will estimate the water usage based on a similar type of business located within the city that is metered.

Net Residential Sewage charge	106.7400
/ by average cu ft of water	<u>6.0000</u>
Cost per cu ft of water	17.7900
X either actual metered/estimate usage	<u>6000</u>
Cost per cu ft of water	106740.00
/ by 1000	106.74

In the case that the commercial property uses more than 6000 cubic feet of water the property would then be charged: Cost per cu ft of water 17.7900

Either Actual or estimated usage	<u>10000.00</u>
Cost per cu ft of water	177900.00
/ by 1000	<u>1000.00</u>
Comm Chg for sewage	177.90

Note: If the parcel has more than one sewage connection the parcel would be charged for the number of connections. The actual charges would be based on either residential or commercial connections.

## PARKING ZONE REQUEST

**We request the Traffic Engineer to review this request for 2 hour parking.**

4 years ago both sides were posted 2 hours. A few years ago, 2 hr. parking was removed from the west side. Since that time, parking has increased. Now cars are parked for days - people park that don't even live on the block. It's like a free parking lot.

**CITY OF LA CROSSE  
BOARD OF PUBLIC WORKS  
Findings & Orders:**

July 26, 2022

ESTABLISHING

AMENDING

VACATING

TYPE OF ALTERATION: 2-Hour Parking, 8 A.M. to 6 P.M., Except Sat., Sun., & Hol.

GENERAL LOCATION: 600 block 23<sup>rd</sup> Street North, West side

Report:

A request, application, and petition were received to investigate the 600 block of 23<sup>rd</sup> Street North for 2-hour parking reinstallation.

It is hereby noted that 68% of the footage is requesting reinstalling the 2-hour parking on the west side. It is therefore recommended to reinstall the 2-hour parking in the 600 block of 23<sup>rd</sup> Street N on the west side of the block.

**WHEREAS**, Section 44-39 of the City of La Crosse Municipal Code of Ordinances provides that after obtaining a report and recommendation of the Traffic Engineer, the Chief of Police shall forward recommendations and appropriate orders to the Board of Public Works.

**AND WHEREAS**, the Findings of the Traffic Engineer state the public interest, convenience, and necessity, the Chief of Police hereby Orders the above traffic alterations, to wit:

- Reinstall 2-Hour parking in the 600 block of 23<sup>rd</sup> St N as defined above.

**NOW, THEREFORE**, the Board of Public Works hereby approves the aforementioned traffic alteration, and City staff is hereby authorized to effect said changes.

Matthew A. Gallager  
Dir. Engineering & Public Works

I certify that I have reviewed the Municipal Code and understand all that is related to this permit request. I further certify that I have the full authority to make the foregoing application; the information in the application and the required submittals are complete and correct; the Work or Use performed shall comply with all the laws of the State of Wisconsin, and all ordinances, rules, regulations, policies and special conditions of the City of La Crosse. The applicant agrees to perform the work covered by an approved permit with diligence and convenience to the public.

Signature of Owner : \_\_\_\_\_ Date: 06/07/2022  
Print Name and Title: Allan McCormick - Owner

Please return this completed application along with required information and fees noted on checklist below to: City of La Crosse, Engineering Department, 400 La Crosse Street, La Crosse, WI 54601. You will then be given notice of when your request will be on the Board of Public Works agenda for consideration. Once approved an agreement document will be drafted by City and sent to Owner for signatures. Permit will then be valid once recorded with the County's Register of Deeds department. Applicant shall obtain all other necessary permits as required by City Departments. **Average completion time for validation 45 days.**

**BELOW THIS LINE TO BE COMPLETED BY CITY STAFF ONLY**

Required items to be provided by Applicant:	
Scale Drawing of encroachment on letter size paper(s)	<input checked="" type="checkbox"/>
Legal Description of benefiting parcel(s)	<input checked="" type="checkbox"/>

**All Fees are Non-Refundable & Subject to change by City Council**

## **REVOCABLE OCCUPANCY / STREET PRIVILEGE PERMIT APPLICATION**

**City of La Crosse Engineering Department**

Phone: 608-789-7505 Email: [engineering@cityoflacrosse.org](mailto:engineering@cityoflacrosse.org) <http://cityoflacrosse.org>

### **Permit Additional Conditions**

- 1 The encroachment must be maintained in good condition at all times.
- 2 The applicant shall be primarily liable for damages to person or property by reason of the maintenance of said encroachment.
- 3 Applicant waives any and all rights to contest in any manner the validity of Sec. 66.0425, Wis. Stats. and the amount of compensation charged.
- 4 Provision for a bond is hereby waived.
- 5 The applicant for a permit to encroach on the public right-of-way shall procure and maintain for the duration of the permit a minimum liability and contractual liability policy in the amount of \$100,000.00 each person, \$300,000.00 each accident for bodily injury and \$100,000.00 for property damage. A certificate of such insurance shall be filed with the City of La Crosse as part of the application. The insurance shall name the City, its officials, employees and agents as additional insureds. The Board may approve greater insurance protection on a case-by-case basis.
- 6 Applicant agrees that if they do not remove the encroachment within ten (10) days after receiving notice from the City to do so, the City is authorized to remove the same and applicants agree to pay the City for all costs of such removal.
- 7 Applicant further agrees that the City shall not be liable to applicants for any damage applicants may receive to their encroachment should it be damaged by the City if the City performs work or maintenance in the area of the Revocable Occupancy Permit.
- 8 Applicant further agrees that if the City determines that the installation or use of the described encroachment authorized under this permit increases the difficulty of highway maintenance, creates conditions adverse to the best interest of the highway users, the general public, or presents a threat to highway safety, then the Occupant, upon notification by the City shall promptly remove the encroachment from the highway right of way.
- 9 Failure by the Applicant to comply with the provisions of this permit is cause for the City to terminate this permit and to require the Applicant to take immediate action to clear the right of way to a safe condition.
- 10 Applicant agrees to renew this permit annually each January by submitting renewal form and current fee established by the La Crosse Common Council.

**Product Overview**

## **\*Minimum of 10 Required (Fee applies to orders of less than 10)**

One of the most reliable barricades on the market, the 8.5 Foot Heavy Duty Steel Barricade is made from marine-grade, hot-dipped galvanized steel. At 8.5 feet long, these barricades will cover more ground than most other barricades on the market. The premium hot-dipped galvanized coating and 16 gauge steel make it the ideal barricade for any weather condition. With its simple interlocking design, the 8.5 Foot Heavy Duty Steel Barricade can easily be hooked to another to create a long, continuous line of protection. All 8.5 Foot Heavy Duty Steel Barricades come with removable feet that can be customized to fit a variety of landscapes and flooring types.

### **Resources:**

[Barricade Specification Sheet](#)

## **Strength & Durability**

The hot-dipped galvanized steel creates a comprehensive rust-proof seal, helping increase longevity and decrease corrosion. The barricades are hot dipped galvanized after construction and welding to fully weatherproof the entire barricade. Each barricade measures 8.5 feet long and weighs 44 pounds — all made from solid 16 gauge steel. The mainframe is composed of 1.5-inch diameter steel tube and contains 21 upright barricade bars to provide adequate protection and security.

## **Simple Interlocking Design**

All 8.5 Foot Heavy Duty Steel Barricades can link together to block off large sections or specific areas. Through a simple hook and loop design, each of the two hooks on the right side of the 8.5 Foot Heavy Duty Steel Barricade will drop directly into the two loops on the left side of the proceeding barricade. When the barricades are locked together, they can only be unhooked from the ends to help with stability and security.

## **Interchangeable Feet**

The 8.5 Foot Heavy Duty Steel Barricade is available in two different feet options: Bridge Feet or Flat Feet. Bridge Feet are typically used on uneven surfaces such as grass, gravel and slight hills or inclines; Flat Feet are ideal for flat surfaces such as concrete and are designed to minimize tripping hazards. To create a more permanent fixture, the Flat Feet can also be bolted to the ground.

## Product Benefits

- Long-lasting, hot-dipped galvanized finish
- Long length and heavy build for maximum protection
- Interchangeable feet options
- Easy interlocking design; compatible with other barricades
- Compatible with other barricades
- 100% recyclable

## Use Cases

- Large Construction Sites
- Traffic Management
- Stadiums
- Public Events

## Options & Accessories

### Custom Jacket Covers

Made of heavy-duty vinyl, these custom printed jacket covers fit perfectly over the frame of the barricade and offer a variety of colors, styles, fonts and imagery for individual branding needs. All

## **Barricade Storage Carts**

Easily transport and store barricades with a barricade storage cart. Each cart fits up to 30 8.5 foot barricades, stores up to 24 fixed foot barricades. Storage carts are made from powder-coated steel and can be stored indoors or outdoors.

## **Technical Specifications**

<b>Height</b>	44"
<b>Length</b>	8'6"
<b>Width</b>	26 3/4" (bridge feet); 26" (flat feet)
<b>Weight</b>	44 pounds
<b>Steel Thickness</b>	16 gauge
<b>Outer Tube Diameter</b>	1 1/2"
<b>Inner Tube Diameter</b>	1/2"
<b>Feet Style</b>	Choose either Bridge OR Flat feet— Although they are interchangeable, you must select an option of one or the other for each order of a barricade.
<b>Material</b>	Hot-Dipped Galvanized Steel

# Heavy Duty Plastic Jersey Barrier | 32" Tall X 24" Width X 72" Length

## ▶ 32" High X 18" Wide X 72" Long Plastic Jersey Barrier

Crash test rated plastic jersey barriers for construction and highway use. This rotationally molded jersey barrier is made from 100% virgin plastic resins and can withstand hot and cold climates. The ridges on the exterior and interior of the barrier give this plastic barrier the extra strength to withstand the wear and tear of everyday use by customers.

Ask one of our experts about how to use these jersey barriers in cold climates or what plastic barrier would work best for your application.

City Hall

**CITY OF LA CROSSE  
BOARD OF PUBLIC WORKS  
Findings & Orders:**

July 26, 2022

ESTABLISHING

AMENDING

VACATING

TYPE OF ALTERATION: All way STOP control

GENERAL LOCATION: Intersection of Moore Street & Bud Hendrickson Trail

Report:

A request was received to investigate traffic control at the intersection of Moore Street and the Bud Hendrickson Trail, which is currently North-South STOP controlled. The primary condition of concern is a reminder that private driveways shall stop prior to entering public roadways. The intersection is entirely within City Right of Way.

To establish more proactive governance of right of way, the Board of Public Works could approve an all-way STOP control.

**WHEREAS**, Section 44-39 of the City of La Crosse Municipal Code of Ordinances provides that after obtaining a report and recommendation of the Traffic Engineer, the Chief of Police shall forward recommendations and appropriate orders to the Board of Public Works.

**AND WHEREAS**, the Findings of the Traffic Engineer state the public interest, convenience, and necessity, the Chief of Police hereby Orders the above traffic alterations, to wit:

- All way STOP signs at Moore Street & Bud Hendrickson Trail

**NOW, THEREFORE**, the Board of Public Works hereby approves the aforementioned traffic alteration, and City staff is hereby authorized to effect said changes.

Matthew A. Gallager  
Dir. Engineering & Public Works

## REVOCABLE OCCUPANCY / STREET PRIVILEGE PERMIT APPLICATION

City of La Crosse Engineering Department

Phone: 608-789-7505 Email: [engineering@cityoflacrosse.org](mailto:engineering@cityoflacrosse.org) <http://cityoflacrosse.org>

### STREET PRIVILEGE PERMIT CONDITIONS FOR COMMUNICATIONS INSTALLATIONS

1. The applicant shall be primarily liable for damages to person or property by reason of the granting of this street privilege permit.
2. The applicant shall obtain an excavation permit from the City of La Crosse Engineering Department prior to performing installation or any maintenance on the cable in the City right-of-way that requires excavation or disruption of pavement, sidewalk, curb and gutter, or other structure.
3. The applicant agrees that tracer wires shall be used and final cable location within the street right-of-way shall be approved by the City Engineer. Cable shall be installed not less than 36 inches deep, unless otherwise approved by the City Engineer.
4. Applicant agrees to provide the City of La Crosse with final "as-built" plans when installation is complete.
5. Applicant agrees that any pavement, concrete or green space disturbed during drilling activities shall be restored to its prior condition.
6. Applicant agrees that said installation shall not interfere with the City's water, sanitary sewer, or storm sewer underground infrastructure that may be in the area.
7. Applicant further agrees that they will make arrangements with the public utility companies and the City of La Crosse to clear all public underground utilities prior to initiating such work, and if necessary, applicant will make arrangements with the City of La Crosse to ensure proper traffic control.
8. Applicant waives any and all rights to contest in any way or manner the validity of Sec. 66.0425 of the Wisconsin Statutes and the amount of compensation charged.
9. Applicant agrees to become a member of Diggers Hotline for marking / locating of utility.
10. The applicant for a permit to encroach on the public right-of-way shall procure and maintain for the duration of the permit a minimum liability and contractual liability policy in the amount of \$100,000.00 each person, \$300,000.00 each accident for bodily injury and \$100,000.00 for property damage. A certificate of such insurance shall be filed with the City Attorney as part of the application. The insurance shall name the City, its officials, employees and agents as additional insureds. The Board may approve greater insurance protection on a case-by-case basis.
11. Applicant further agrees to hold harmless the City for any damage to said cable while the City, its agents or contractors are conducting construction for maintenance activities in or upon such area in which said cable lies; provided, however, the City shall make a good faith effort to notify applicant of any maintenance or work in the area of the street privilege permit which may damage applicant's cable.
12. Applicant agrees to remove the cable and return the area to its original condition upon ten (10) days' notice by the Board of Public Works. The applicant further agrees that if it does not remove the cable within ten (10) days after receiving notice, the City is authorized to remove the same and applicant agrees to pay the City for all costs of such removal.
13. Applicant further agrees that the obligations and conditions of this street privilege permit shall be binding upon all heirs, successors and assigns of applicant.
14. The person(s) signing this Permit warrant that they have the authority to sign as, or on behalf of, the party for whom they are signing.
