RE: La Crosse Fire Department Storage Building

The La Crosse Fire Department is planning to construct a new storage building on the property located at 1710 Losey Boulevard/2300 Green Bay Street. The property is currently the location of Fire Station 3 (1710 Losey Blvd) and a large parking lot (2300 Green Bay St.). The proposed storage building will be constructed in the south area of the parking lot. The property currently is zoned as 2 separate parcels listed as 17-50091-30 and 17-50091-50, with a portion of Fire Station 3 overlapping onto parcel 17-50091-40 (2310 Green Bay St.). The La Crosse Fire Department is proposing to combine parcels 17-50091-30 and 17-50091-50 so that the fire station and the new storage building will be on one parcel. The north portion of Fire Station 3 currently overlaps into parcel 17-50091-40 which currently houses City Well Station 12, which is an inactive well. The La Crosse Fire Department is proposing to move the lot line separating Fire Station 3 and Well Station 12 to the north so that Fire Station 3 will no longer cross over the existing lot line. The process of surveying the lot line will be completed by the City of La Crosse Engineer Department.
