Dear City Council Member,

I am a proud resident of LaCrosse County for over 3 years now as well as an employee of Riverside Transitional Care (RTC) for over 3 years. I have gained much respect for the leadership team at Eagle Crest Communities. They always put the resident first, the employee second and the business third. They have shown above and beyond respect to the neighborhood and its property owners surrounding RTC. RTC has great respect from hundreds of families that have either been here for a short-term or long-term stay, or just visiting a loved one.

This project that RTC is proposing is not for profit, but more importantly for 'quality of life'. The vast majority of our residents would prefer a private room to gain some sort of independence while needing to live here. They deserve privacy for themselves and their visitors. This project will add beauty to the neighborhood and their personal living space, as well as enrich so many lives and their families. The passing of this project will gain the respect of hundreds of people in LaCrosse County. Please help enrich the 'quality of lives' and their loved ones that we are so blessed to attend to their needs every single day. They are all so deserving of this and need this. Covid has taken so much from our residents and their families, this is an opportunity that we can give back to the valuable time they have lost. You can help make that difference!

Thank you so much for your time.

Wayne Peterson
