

City of La Crosse Common Council  
Judiciary and Administration Committee

To Whom It May Concern:

We are requesting a waiver of restrictions provided in section 8.07 (I), as it applies to the registration of single family dwellings as rental property.

The property in question is located at 1809 South 19th Street. This property was originally registered as a rental property in 2003.

We were unaware that the property would require re-registration after the acceptance of the registration.

It would create a hardship for the family who has been renting the property for the past four years. Their daughter is in a neighborhood school, and relocation would be disruptive to their family.

It would also be a hardship for my widowed mother, who relies on the income from the rental of this property. This is the only income she receives

from rental property.

This property is well maintained, it is located directly across the street from my mother. Our family has owned this home as long as I can remember, as my grandmother lived there until her death, and only then did we consider renting it. It is a well established, family neighborhood, and it would be a real shame to see it sitting empty, and displace a young family.

Thank you for considering our request for a waiver. Please contact me with any questions regarding this issue.
