Dale Hexon/Public Works Board:

I am requesting approval to install a picket fence at the Kane Street Community Garden, in La Crosse, as requested by the Hunger Task Force/Community Garden, which will be used as a designated "Children's Educational Area" at the Garden.

I approached the Community Garden for a possible Eagle project that might help improve the Garden. The attached maps, photos, and drawings show the style and approximate location for the (32'x72' foot) fence. It is currently staked off at the site, as well.

Home Depot, Wisconsin Building Supply, and Badger Corrugating have already donated a large percent of the supplies, for this project and I have volunteer labor arranged. We are just waiting for approval from the City to proceed, hopefully before the ground freezes.

If you have any further questions please call:

Nathan Baker (Eagle Scout) 608-790-8409, 608-787-7410

Dave Roberts (Eagle Scout Advisor) 847-922-9721

Shelly Fortner (Hunger Task Force/Community Garden) 793-1002

Thank you for your consideration,

Nathan Baker

October 15, 2015

Dear Friends:

We fully support Nathan Baker's Eagle Scout project for our Children's Garden at the Kane Street Community Garden. A volunteer project like this saves our organization both time and money and is a huge benefit to us. Nathan's time and talents will be put to good use for The Hunger Task Force and his gift will be useful for many years to come.

A new fence at the Children's Garden will ensure the safety of our little ones as they learn to eat healthier through hands-on educational activities in their own special area. We hope you join with us in supporting his investment in making The Kane Street Community Garden a continued asset to a deserving neighborhood!

In Service,

Shelly Fortner  
Executive Director
