Hi Bernie -

I spoke to Mario and we agreed - LN&DN funds would pay for the concrete work and his organization, (Beer-by-Bike Brigade) would donate the rack for the Northside library. He has additional bike racks we maybe able to purchase for other spots too.

Will do -

Thanks -

Jerry

Jerry,

I have talked to Mario and they strongly desire to donate the rack. He said they would prefer you spend the neighborhood money elsewhere to do additional things for the neighborhood and let them donate the rack.

So using LNDN funds for pouring the concrete and letting them donating the rack would be a great approach. This late in the season all our concrete funds are depleted, so those LNDN funds would be the only mechanism I am aware of to fund the concrete right now anyway.
