Dear Council Members,

I am writing to **STRONGLY** urge you to pass the climate emergency resolution! As a community, we must prepare for and support the upcoming climate action plan. The issue of climate justice is intersectional and the greatest impacts are often felt by community members that live on these intersecting margins of identity including race, class, and disability. We are already incredibly behind on other social and economic issues, and passing a resolution to commit to centering work that intentionally addresses the climate crisis will serve as a great *initial* step by our local government to mitigate current and impending harms and barriers that exist for so many of us. PLEASE pass this resolution, as the community members of La Crosse deserve to live in a place that puts care and attention toward the urgency of centering climate justice in decision-making.

Thank you for your time,

Laura Abellera
