COUNTY OF LA CROSSE)

Personally appeared before me this 4th day of May, 2017, the above named individual, to me known to be the person who executed the foregoing instrument and acknowledged the same.

Louise K Olson

Notary Public

My Commission Expires: 10/27/2017

At least 30 days prior to filing the petition for approval of the designation of a Planned Development District, the owner or his agent making such petition shall meet with the Planning Department, Engineering Department and Building Safety to discuss the scope and proposed nature of the contemplated development. (Pursuant sec. 115-156(3)(e)(1) of the Municipal Code of Ordinances of the City of La Crosse.)

PETITIONER SHALL, BEFORE FILING, HAVE PETITION REVIEWED AND INFORMATION VERIFIED BY THE DIRECTOR OF PLANNING & DEVELOPMENT.

Review was made on the 4th day of May, 2017

Signed: [Signature], Senior Planner
Director of Planning & Development

Campbell Road Townhouses Timeline and Critical Dates

Goal: September 15th 2017 all approvals completed with demolition start September 16, 2017.
Construction to start October 1, 2017.

Project Cost: \$3,828,589.00

Current Assessed FMV with improvements: \$479,800.00

Proposed Project Mix: 8 one bedroom and 16 two bedroom townhouses for a total of 24 residences.
There will be 24 attached garages. Site plan, elevation plans and floor plans are attached as exhibit A.

Zoning:

Current zoning is single family

Proposed zoning is traditional neighborhood development or TND

Comprehensive plan zoning is medium intensity retail, office, or housing. See exhibit B.

Organizational Structure:

The property is currently owned by two different entities, both entities managing member is Marvin Wanders. The property will be combined into a new SPE (single purpose entity) and will still have Marvin Wanders as a managing member. All professional services from property management, legal and accounting will be provided by or led by Three Sixty Real Estate Solutions LLC.

Elevation of Site and Soils: The site is all at or very near 674 feet above sea level. The site is flat and has a very small degree of elevation changes. The soil are sandy. Soil boring and compaction will be completed at the site as needed.

Entitlement Timeline and Critical dates

General Zoning: Submittal by May 5th for the June Council cycle.

Alley Vacation: If the general zoning is approved in the June council cycle immediately request ally vacation start of process with Engineering. Engineering will forward the vacation to BOD. This will allow the alley vacation to be on the July council cycle. Assuming this passes the July council cycle, there is a 60-day waiting period for the alley vacation to take effect. Plan Commission will review the alley vacation at the August meeting. The Vacation of the alley would take effect September 14th.

Design Review Process: Between May 5th and the June council cycle have an initial meeting with the design review team to provide information on the general project concept. This meeting will allow for general discussion, which will A&E designers to consider recommendations in design. At this meeting set other critical design review dates as necessary as determined by the team. Design review must be completed by August 4th, 2017.

Specific Zoning: To be submitted August 4th, 2017. This will be on the council cycle for September. Specific zoning and alley vacation will both be completed by September 14th, 2017.

Project Need

The need for quality workforce, young professional and empty nester housing has been identified by our operations team for this location. The need for quality housing has been identified by the city and is a focus of city wide redevelopment efforts.

Project Design Elements

Street Engagement

Created an exterior that reflects the street presence of a traditional single family, but in a row house design.

Engage the street with the front porch concept. Creating traditional front porches engages neighbors in conversation, strengthen connection to community, and helps establish a feeling of neighborhood. Front porches beautify the neighborhood and create a welcoming entrance to a person home. Flower baskets, plantings, conversation chairs and other colorful exterior decorations create a sense of home.

The garages are designed with patios to create outside spaces for the townhome residences.

Sustainability

When it comes to sustainability very few principles are more important than the impact of the local factor. Be it local sourced materials, local produced products, local jobs or supporting good pay jobs growth! This is our commitment to using all La Crosse based businesses in this development; we are committed to keeping it local. Our vision is compatible with the City of La Crosse and La Crosse County Strategic Plan for sustainability and will be designed to LEED ND standards. Our team will focus on many strategic sustainable methods a few examples that will be employed in the development will be:

- Creating a tight building envelope that uses best practices for lower energy consumption, utilizes sustainable high quality materials, and energy efficient designs.
- Creating an environment that highlights and respects our natural resources and is designed in a method that connects people to the resource.
- Storm water retention and management that will manage the water onsite.
- Landscaping will use native plants and provides a food source for both people and wildlife.
- Building design will utilize natural light to create more creature comfort and reduction in energy needs.
- It is the intent of this project to create a healthy living model with close access to pedestrian resources such as the marsh, bluffs, and local parks.
- Three Sixty Real Estate Solutions was the Multifamily property owner in La Crosse to go “smoke free”. This property will be smoke free as well.
- The location of this site near the University, hospitals, City Government, County Government, and downtown employers enables residents to bike or walk to work and decrease dependence on the automobile.

Sustainable Examples from our developments

Community Gardens

Solar Hot Water

Pervious Pavement Biofiltration

Underground Storm Water Storage

Bike Facilities: Facilities include wash bays; bike tire pumps and tool repair stands.
