I purchased this property about 15 years ago. This property has been registered and inspected by the city inspection department. This was also a rental from the people I purchased the property from.

I am applying for a waiver under the section (5) Hardship. The renter is a ~~single~~ long term renter who wants to stay & she fears she would not be able to relocate to another suitable place.

This is a hardship to me also if I cannot continue renting out this home as I have registered this property & continued to have it inspected.
