NOTICE OF PUBLIC HEARING

DATE: March 12, 2021

Dear Resident/Owner:

City of La Crosse policy includes continuing efforts to provide multimodal connections and safer facilities for use by pedestrians and bicycles, such as new or infill sidewalk and on-street bike lanes. This helps provide safer travel options within and through neighborhoods. Per the City of La Crosse Green Complete Streets Ordinance, staff must examine every street project for addition of sidewalks and bike lanes. City planning documents highlight priorities, which may include safe routes to school, near City bus stops, worn footpaths in grass or dirt, or blocks with partial/incomplete sidewalks.

The addition of **sidewalks** is proposed on your street block. These will be built within public Right-of-Way, but may be a significant change for you. Facilities are constructed with capital improvement funds. No special assessments are charged to property owners.

Please see the *Public Involvement Meeting Information* section of the Construction Projects webpage on the City of La Crosse public website for a map and details depicting the location of the proposed facilities, as well as the Public Hearing information (time, date, and link and phone number to participate).

<https://www.cityoflacrosse.org/your-government/departments/engineering/construction-projects>

The Public Hearing is your time to provide input and ask questions. Participation is encouraged. If you are unable to attend, you may submit written statements. Please submit to:

City of La Crosse Engineering Department
400 La Crosse Street
La Crosse, WI 54601

Sincerely,

Yuri Nasonovs
