

Petition to Repair Losey Blvd and Redirect Semi Traffic on Losey Blvd to Alternative Route

Petition summary and background	Residents on Losey Blvd have noticed the increased traffic especially in the form of semis with large, heavy loads. These weighted semis are traveling at high speeds during the early morning hours when traffic lights are flashing yellow and throughout the day. The combination of their speed and weight has caused Losey Blvd to be in extensive need of repair. These factors are now affecting our homes. Our homes are shaking on a regular basis and some homes are now experiencing cracks in their ceilings, etc. As home owners we are concerned that our home foundations will soon need repair and will affect our chances of selling our homes.
Action petitioned for	We, the undersigned, are concerned citizens who urge our leaders to act now to repair Losey Blvd; allow the traffic lights on State Road/Losey intersection to remain on at all hours; reduce speed to 25 miles per hour for vehicles; and most of all reroute the semis (large trucks) to another location such as Mormon Coulee Road.
