I am drafting this letter in support of the repurposing plans of the old La Crosse Riverside Historical Society Museum Space. Riverside Park is a major tourist attraction, but also local residents enjoy the entire Riverside area. Our family has enjoyed riverside for years and even bought a brick one year to support the bronze girl and boy down at Riverside along the river.

Riverside Park has one dead spot remaining and it is the building at the end that no one really knows what it is. A transformation of this space is needed. Out right renovation is needed but it needs a purpose. Utilization of this building as a venue that people can rent will allow anyone access to a high quality location venue that many people can enjoy. This will bring more revenue to the downtown, allow for local businesses to cater, and continue to enhance our thriving downtown community. This will not only preserve the historic building but ensure its preservation for years to come.

My family and I support this improvement to our community.
