Recent cable failures in this area are jeopardizing our service reliability to our customers.

EXTERNAL - STOP & THINK before opening links and attachments.

Hi Jaymie,

This request will go in front of the Board of Public Works on January 10th. In the meantime could you give us a better explanation on why this was not planned ahead to avoid excavations in our new roadways. We try to coordinate each year with Xcel Energy by providing our proposed street paving lists each year so that everyone can plan accordingly. If this is approved we do not want the same thing to happen in the future. Thanks

Jay, I have gathered some additional information for consideration of the r/w permit we discussed earlier. The cable in this area needs to be replaced for reliability of service for our customers. I know the actual permit was not coming thru properly to you before, hope it works this time, looks good on my end. If not, please forward me a editable copy. Let me know your thoughts, thanks, and Happy New Year!
