We are submitting this letter for feedback for the Public Works meeting on February 26th. Please reply that you have received this submission. Word document attached.

We are aware of the concern regarding this project with landscaping and trees planted on the boulevard property on the odd side of 28<sup>th</sup> St S. We live on 28<sup>th</sup> St S and are directly impacted with two 60+ year old trees out front. They are not in the direct path of the sidewalk, but trees could become distressed per a tree specialist.

We support the infill of "orphan" sidewalks in the neighborhood including the even side of 28<sup>th</sup> St S where there appears to be no obstructions. It's great to see the city investing capital improvement funds in our neighborhood to be pedestrian friendly, especially with the news that Hintgen School will remain open.

Linda and Tim Bye

3115 28<sup>th</sup> St S

Thank you,

Linda and Tim Bye
