MARITIME INFORMATION SYSTEMS, INC.
Tel: (401) 247-7780

Thank you for working with Maritime Information Systems, Inc.

The ADS-B equipment is fairly easy to install. Here are the instructions to install the equipment.

INSTRUCTIONS:

Please install the antennas at the highest point possible on the structure. The antennas can be flush mounted. The green antenna has bracket/pole mount fittings.

Run both 50 foot cables into the building as near as possible to power and an internet connection

Connect the green antenna cable to the SMA fitting and the wire cable to the BNC fitting

Connect ADS-B box to router, hub, or modem using Ethernet cable.

Read and write down the 4-digit number of the back of the ADS-B box.

Connect power supply to ADS-B radio.

Contact Maritime Information system for log in information to your account and to verify signal!

Thanks again!

Best regards,

Moses Calouro
