To whom it concerns,

I am writing this on behalf of my sister Virginia (Ginny) Kreyer and her life partner Rick Warren. They live currently at the address of 4806 Rivercrest Rd., LaCrosse, Wisconsin. They both have lived, worked, and retired in the city of LaCrosse..

My sister Ginny worked 1979-2012 at the University of LaCrosse, serving with honor and distinction. In retirement they remain active members of the community and church, with volunteer work, continuing to serve even now.

Their hobbies include various arts, crafts, bird watching, gardening, cars, camping, and kayaking. These activities drew them to the area they now live, providing them proximity to the nature they love.

In this place they call home, over the past 18 years, they have contributed to their surroundings by planting many trees and beautiful flower gardens, carefully maintaining, adding to each year, and sharing with others. They have made many updates and improvements to their home over the years including recently adding a new furnace and appliances.

Ginny and Rick are now in their late 70's. This time in their lives, after all they have worked for, should be a time of rest, and at minimum a time of security in days to come.

During these 18 years of leasing with Rivercrest Mobile Home Court, they have been conscientious tenants and always compliant with their lease terms. Until recently they were never provided the fact that the property they lived on was owned by the City of LaCrosse. This is 18 years of not being informed! Additionally, they were NEVER informed they must relocate, until recently. It is then that they first learned of the discussions going back several years between the City and the court management regarding lease terms between those two parties. Ginny, Rick and others are now victims due to the decision rendered by the City and of not being properly informed by the court management from the beginning.

Please, I ask you to reconsider and reverse the decision of forcing them to vacate the property. The decision, as it stands now, has resulted in putting everything they have and worked for in jeopardy. These are people, not pawns in a business deal. This would be a cruel injustice to innocent people.
