Subject: RE: City electrical outlets being used as Electric Vehicle Charging Stations.

All,

I see the city has erected signs prohibiting the use of the outlets "without reservations", so my initial concern has been answered.

The only other questions I have would be:

1. Does the city wish for police to cite violators for theft?
2. Will the Parks Dept. be willing to allow owners of electric vehicles, etc., to pay a "reservation fee" to use the outlets?

I'm guessing these questions will be asked the next time we respond to complaints in the future, and I'm just wondering how we should answer them.

Respectfully,

Jared Z. Reed

The above item was on the Board of Public Works agenda this morning. No one was at the meeting to explain the reason for the agenda item, and since the Board didn't have any details, they referred it to next Monday's Board of Public Works meeting.

I found the email string you started that includes Matt Gallager's responses. I will attach it to the file so they are better informed next week. However, I recommend you or someone on your behalf attend the next meeting on Monday, July 31 at 10:00 a.m. in the 5th Floor Conference Room at City Hall.
