

CITY OF LA CROSSE

May 2nd, 2016

To whom it may concern, I am writing in regards to Vacating a Portion of George Place.

First I received this notice late. The Clerks office told me they meant to send it out sooner but did not. My daughter received it by a summons police officer while we were on vacation and in Louisiana. When I called they emailed and told me the dates but I was not going to be back in time for the April 4th meeting. They were helpful in trying to make sure I understood the information.

Next I am concerned as are my neighbors about not having a turn around in this Street / Alley. There are 3 houses that use this street as their ONLY entrance to their house as they have no alley. One house has no parking spot but to use their small front yard. If a guest comes the second car would fill their entire yard. The second house has barely no front yard and only one or possibly 2 cars can fit in the side spot beside the house. The third house was purchased by Mc Donald's to be demolished. I feel they should give up part of this property which is next to the turn around currently to make a new turn around. (I will provide pictures at meeting)

I feel this impacts me greatly! We have mail trucks daily, large garbage trucks weekly and frequent visitors daily to all houses (7) that use this alley. Also I am already concerned about the traffic that goes or should I say attempts to go through this dead end Street. My vehicles, garage, and garbage are close to the Street and would constantly get hit being they would use my space to try and turn around in which is not much! I also fear for our kids/adults that use this Street and while the backing up cars more often will have to do if they are not able to turn around. We also have people that are on disability that live on this street. I would like to know who will pay my deductibles and rising insurance cost due to any accidents that occur.

I am very disappointed that in reviewing this no one thinks of the people but only the business. I have lived here for 20 years and again disappointed in the process on this and notification I/we received.

Thank you,

Nicholas and Darlene Popoutsis
