City of LaCrosse....I am HIGHLY opposed to the government over each into parents rights in regards to teaching their children about sexuality. Government has no business in interfering in the parent child relationship. Especially since it seems to be the schools mission to recruit and groom children into the LGBTQ agenda. This should also be banned under this ordinance. It in itself is a type of conversion therapy, only the goal is to covert children away from a normal heterosexual lifestyle into a homosexual lifestyle.

It is not up to the city to interfere with the parent and child. Children do not belong to the state, they belong to their parents.

Additionally....there is no climate emergency, there is so evidence that supports this....getting rid of fossil fuels is absolutely a premature move when there is no other alternative to take its place. This is just suicidal.

Sincerely: JA Schmitz.
