Board of Public Works:

The Parks, Recreation, and Forestry Department is in emergent need of a replacement pool heater at Erickson Pool. The existing unit has a defective heat exchanger creating an immediate need for replacement. This is the sole water heating unit for pool water. The lowest quote received was from Coulee Region Mechanical Contractors Inc. in the amount of \$33,240.00 to include the new unit and installation. Given the age of the current pool heater (11 years) our recommendation is to replace the full unit. Funding for this request will be provided by the Parks Equipment Sales Account (4804210-580901- Sales).

Thank you.

Dan Trussoni
Deputy Director Parks, Forestry, and Facilities
