

Our Amazing Planet Summer Camp

Hosted by Coulee Region Humane Society

Join us for five days of exploration as we dive into the habitats of some of the most amazing animals around the world. Each day we will discover a new region and take a deeper look into all the wonderful species that thrive there.

Information:

Dates: June 24th - 28th

August 12th - 16th

Time: 9:00am - 3:00pm

Grades: 1st - 5th

Price: One time fee of \$185 per child

Camp Limit: 15 campers per session

Monday: Mammals in Motion

Animal Showcase

Pet Therapy guest dog, shelter cat/kitten, Roo the Guinea Pig

What does it take to run an animal shelter and why is it so important to have one? These are just some of the questions we'll have answered during our first day at our very own shelter! Campers will get an opportunity to learn about and spend time with animals we commonly see here as well as discover ways we can help as a community. A personal and exciting tour will take place followed by many games, activities, and even a scavenger hunt that will give kids a better understanding of the mammals that surround us!

LUNCH PROVIDED

Tuesday: The Desolate Desert

Animal Showcase

**Bindi the Blue Tongue Skink,
Ridley the Bearded Dragon,**

&

Genji the Leopard Gecko

Tuesday we dive into the wasteland that is the desert. Can animals even live here? You bet! Campers will learn how species adapt to extreme climates as well as conduct a science experiment that will help us better understand how the desert is so full of life! We will get to hold and analyze three different desert species of lizard, learning about the anatomy that is requires for this desolate region of the world. We also play a special “survival” game this day and the winners come out with a pretty neat prize!

LUNCH PROVIDED

**Wednesday: Go Herping!
(Myric Park) *Tentative***

Animal Showcase
Wild animal sightings &
Arthur the Western Hognose Snake

What is herpetology and why are we so lucky to be able to study it here? Campers will have a fun filled day at Myric Park where we will seek out native amphibians and reptiles as we learn about their habitats and importance in the circle of life, right in our backyard! Games, activities and crafts will hopefully be held in the 'Myric Gun Club' shelter for our full camp day. (Stay tuned for updates)

This camp session will ideally held at Myric Park this day. Campers will need to be dropped off and picked up here! LUNCH PROVIDED & stay tuned for updates

Thursday: The Blue World Below

Animal Showcase

N/A

On Thursday we dive deep into the ocean and great lakes and explore what lies underneath. Campers will get a first hand experience of what life below waters looks like and what it takes to survive. We conduct an experiment that shows children the difference between salt and fresh water as well as play Turtle Beach Dash: a game that demonstrates the trials sea turtles need to overcome before making it to the safety of the sea. Plan on getting wet this day!

LUNCH PROVIDED

Friday: The Amazing Amazon

Animal Showcase

Dora the Brazilian Rainbow Boa

& Reptar the Crested Gecko

We saved the best for last! Trek your way through the amazon jungle and discover the vast amount of animals who call it home. Our special guest teaches us about humidity in the rainforest. At her full size, Dora will be six feet long, woah! Each child will get a photo opportunity with this beautiful girl as a keepsake for their time spent at camp. We spend the day building our own rainforest and playing games/activities inside of it. Children will create their own amazon ecosystem and be able to tell everyone each layer of it and why it's so important.

LUNCH PROVIDED
