Good morning. I just want to reach out in regards to the City meeting tonight regarding the "Haven on Main" proposal for special needs housing. I am strongly in favor of this project moving forward. I have a daughter with special needs who turns 18 this week. Naturally I have been surrounded by other families with children of special needs as we attend many of the same activities and have for many years. It is a common conversation that our community does NOT have housing for our children. As my daughter approaches the chapter in her life of wanting to become more independent and eventually live independently, it is frightening as a parent to know our community doesn't have much to offer. I pray we can make this happen! Please share my support of this project with the people who involved in voting on it. Thank you so much. Rick
