

# 1452 George St

There is currently a paved parking area at 1452 George St that measures 24' wide by 31' deep. Adjacent to the parking area, there is currently a freestanding shed that we intend to remove and replace with additional paved parking. This minor adjustment will increase the paved parking area to 36' wide by 31' deep and provide 1,116 sq ft for future tenants to utilize. According to [qcode.us](http://qcode.us), parking spaces in the US should be 9' wide and 18' deep. The following images will depict our plans to provide 6 parking spaces for tenants at 1452 George St.

# 1452 George St view from gis.cityoflacrosse.org

The screenshot displays the City of La Crosse Online Mapping interface. The top navigation bar includes "City Maps", "County Maps", and "Feedback". The map shows a street view of 1452 George St, with other addresses like 1444-46, 1220, and 1217-19 visible. A measurement tool is active, showing a result of 1,107.5 Sq Feet. The interface includes a search bar, a home button, and a scale bar (0 to 30ft). The status bar at the bottom indicates "La Crosse County, City of" and "Press CTRL to enable snapping".
