

H. J. Olson Center  
has → the space  
conveniently located  
safe environment  
multi-purpose space  
public-transportation  
kitchen

So why change it? <sup>easy access</sup> Were happy  
here, M. Rudder  
(over)

If folks from out of  
Lax County or the city of  
Lax come to our center  
we welcome them, In  
smaller communities,  
Centers are not available,  
We do not want  
one center for the whole city,

Because this could be a  
so few goal - I think 2  
centers are necessary and if you  
Build new - I think the  
south side library location is  
a good choice - it owns the  
land - - 16th street is  
easy to use - with lots of  
parking  
and a site for the <sup>over</sup> <sub>over</sub>

would need to be found  
do it right and it  
will meet the needs  
post my ~~life~~ time  
alternative 4 is a good idea

Stuart Sletter  
South Side Center

re: Alternate #4

re: Southside -

Is it going to the five stations?

If not, \$256,000 dollars to make repairs is cheaper than a new building would be.?!?

Otherwise #1 for the Southside  
Grace Tengra

I like Alternative 4 best

Harry's center meets most of  
the criteria: Parking, accessibility,  
Bus line access, safe neighborhood, etc.

This may very well be the least  
costly alternative as well  
Roger Christians  
788-2838

Alternative 4 -

I like this one  
especially.

Marilyn Rudsa

If it's not broken, why  
fix it? (over)

Paying by check for  
a consultant? That  
amount of \$5000 could  
be used to update  
our bldg (NJO)
