

To the City of La Crosse South Avenue Committee:

Date: January 17, 2018

This letter is in regards to the Toole Groups proposal of closing 15th Street South of Horton St. and South Avenue. The Trane All Abilities Committee would like to go on record that our committee opposes the closing of 15th St. If such action is taken to close 15th Street it will create only one access opportunity to the parking lot for our All Abilities Park. The parking lot is to be located on the current ball diamond in Trane Park. Furthermore with a round- about to be placed at 16th St. and South Avenue the traffic north of 16th and South Avenue will increase since it is the only route that will allow access to the neighborhoods north of South Avenue. Our committee believes access to the Parking lot has to be from two directions that being 15th Street and Chase Street.

Thank You

Trane All Abilities Park Project President

Francis Formanek
