Good morning Andrea,

I believe you and I have done this before.

Same as last year, our insurance policy will expire on 9/15/23, but we are working on a renewal as we speak. I hope to have it done by the meeting.

I will attach a copy of last years ins cert, the google earth map of the location, and a updated copy of the permit application for the city.

As far as schedule

Schedule of shoot:

9/29/23

12 shots for taping, 50 feet off the path, does not affect public use of path

9/30/23

5pm begin setting up mortars at site

7pm begin loading product ( at this point site goes secure for public safety)

10pm shoot the show

10:20 break down and clean up

10/1/23

Check site for cleanliness during daylight hours

Last year the city mowed a the small patch of grass off the path. This worked great as we were able to work without blocking off the path until ammunition came out.

Thank-you for you time!

Marty Schmal
