To: City of La Crosse Planning Department

Harter's Quick Clean Up is asking for approval of a Conditional Use Permit to erect a new 130 x 150 foot clear span, pre-engineered metal building with a 30-foot clear height at our 2814 Larson Street Location, La Crosse, WI 54603. This building will be used as a Material Recovery Facility (MRF) to help Harter's Quick Clean Up sort and process recycling materials we collect from the City of La Crosse and other communities. We will have a tipping floor to dump material on and then several pieces of equipment and several workers that sort "single stream" recycling. After we sort the material, we will ship the material to different locations. We will send plastic directly to plastic recyclers, paper will go to paper mills, and aluminum and tin will go smelters. We currently store recyclable material in outdoor bunkers on our property and have very limited processing and sorting capabilities. We expect our recycling tonnage to double due to the anticipated increase in amount of recycling from the new City of La Crosse Refuse and Recycling contract.

We are currently transporting these un-processed recycling materials to MRFs in Wisconsin and Minnesota. These MRF's then sort and process recyclables and then ship them to various mills/smelters/plastic recyclers. Building a MRF in La Crosse will enable us to send our products directly to the mills/smelters/plastic recyclers thus cutting out step in recycling process. This is a much more sustainable practice as we no longer have to double-handle material to get it the end buyer. Harter's Quick Clean Up will hire 4-6 full time employees to work in the MRF as soon as it is completed. Additional full and part time employees will be needed as our business continues to grow.

The building will have a 26x50 foot clear span projection(for loading and shipping), recessed loading dock including a 50x50 concrete approach apron and 50-foot long retaining wall. It will also have an interior build out (16'x24') to include Men's and Women's restrooms and a Break Room. Should the Planning Department have any further questions, please don't hesitate to ask.

Sincerely,

A handwritten signature in black ink that reads "Bill Ties".
