Good morning Teri

I have a question for you concerning the chickens in the City. I don't know if you want the concerns sent to you. We have been to an address twice now in the past 2 months about them having over the limit and slaughtering them in their yard. When my Officer got there they were told to only have the 5 and needed to rehome the others. The neighbor claims they had a rooster and several chickens again recently as she was woken up by crowing. She witnessed them loading up to 8 birds in a wire crate and take away and has also witnessed them not only plucking chickens, but claims they had butchered a cow and a pig in their back yard.

The person is

Dang Thao

1627 Redfield St

My officer was there yesterday and they claim not to slaughter there and they were back down to the limit when she was there.

Thank you
