Dear La Crosse City Council Members -

My understanding is that you are voting on the sale of the South Side Library facility this evening. I read in the local news that the developer who is set to purchase the property is interested in creating units from the current building and then 4 additional buildings in the green space.

First, I understand and agree that we need more housing in La Crosse. So selling the current building structure to develop new housing and even adding *some* additional buildings in green space is a good thing. I would just ask that the awesome community park and some additional green space around the park is left for the neighborhood to enjoy with their families. This is the only city park within walking distance from our house. We are still sad that we're missing our neighborhood library but to lose the park and the green space we run around in almost weekly would be a detriment to our neighborhood.

Thank you for hearing my concern and have a great meeting tonight!
