I agree, close it, and reopen when viable

I figured. Should I close our record on that now? The City was looking for a signed agreement on that. If this is up in the air funding wise, I think it might make more sense to start again when a funding mechanism is identified. Let me know your thoughts.

This likely kills the charging station for now. I will begin to search for other funding mechanism for it.

Ch

Charlie,

Thanks for letting us know. Sorry the news was not better. If you get feedback on how we can make a stronger application in the future, we'd be happy to see what we can do.

Thanks,

Ian Turner | Airport Director

Dear La Crosse County BUILD Grant Application Partners:

This e-mail is to let you know that we were not awarded a BUILD grant in the 2020 round of applications. I am disappointed, but not at all disheartened. Only one small grant was awarded in Wisconsin to a very deserving project. We will likely re-apply in the 2021 round of applications with a very similar project. We may even convince additional partners to join in our grant application.

Thank you all for your valuable time and talents in this application.

Please forward this to anyone you think should get an update.

Sincerely;

Charlie Handy
County Planner
