

**A Twin Cities-Milwaukee-Chicago Intercity Passenger Rail Service Project (TCMC Project)**

**Transportation Challenges**

- Insufficient non-auto transportation options for communities
- Insufficient schedule choices for intercity travelers
- Empire Builder near capacity during peak travel months and travel demand expected to rise

**Project Impact**

- Fill regional transportation system gaps
- Provide an alternative that is cost-effective to implement, operate and maintain
- Respond to increases in population and economic growth
- Integrate with Hiawatha service
- Avoid eastbound Empire Builder travel time delays

**Lead Stakeholder**

- Amtrak

**B Harbor Improvements**

**Transportation Challenges**

- Demand exceeds capacity
- Seawall deterioration (SGR)

**Project Impact**

- Increase capacity
- Improves seawall conditions

**Lead Stakeholder**

- Harbor Commission

**C Bainbridge Street Improvements**

**Transportation Challenges**

- Pavement deterioration from heavy truck/freight use

**Project Impact**

- Strengthen roadway design to

accommodate heavy truck and freight traffic

**Lead Stakeholder**

- Town of Campbell

**D Bainbridge Street/County Highway B Improvements**

**Transportation Challenges**

- Pavement deterioration from heavy truck/freight use
- Unsafe pedestrian and bicycle movement
- Lack of transit access

**Project Impact**

- Strengthen roadway design to accommodate heavy truck and freight traffic
- Provides protected pedestrian and bicycle infrastructure
- Provides transit stops

**Lead Stakeholder**

- La Crosse County

**E La Crosse Airport Cargo Improvements**

**Transportation Challenges**

- Demand exceeds capacity
- Security conditions
- Inefficiency in movement of goods

**Project Impact**

- Increase cargo capacity
- Enhanced security
- Improved efficiency

**Lead Stakeholder**

- La Crosse Regional Airport

**F Fanta Reed and Airport Road Improvements**

**Transportation Challenges**

- Pavement deterioration from heavy truck/freight use
- Inadequate intersections

**Project Impact**

- Strengthen roadway design to accommodate heavy truck and freight traffic

• Enhanced intersections

**Lead Stakeholder**

- La Crosse County

**G Airport Road Improvements**

**Transportation Challenges**

- Pavement deterioration from heavy truck/freight use
- Inadequate intersections

**Project Impact**

- Strengthen roadway design to accommodate heavy truck and freight traffic
- Enhanced intersections

**Lead Stakeholder**

- City of La Crosse

**H Electric Vehicle Charging Station**

**Transportation Challenges**

- Lack of EV charging stations to support use of electric vehicles

**Project Impact**

- Provide EV charging station to support use of electric vehicles along I-90 Corridor & La Crosse County

**Lead Stakeholder**

- La Crosse County

**I Fiber Optic Connection**

**Transportation Challenges**

- Insufficient capacity for communications between the airport and the City of Lacrosse

**Project Impact**

- Increase capacity and speed of communications
- Improve La Crosse Airport operations

**Lead Stakeholder**

- City of La Crosse
