I am wondering if I can make a written public comment for tonight's Finance Committee meeting.

I'd like to provide my support for the funding for school-age childcare. Full day school-age programs are vital while schools operate virtually. Parents and families need to work to continue to provide for their families as well as our community needs essential workers to still work and have a safe place for their children. These programs are supporting virtual learning for the children so they can keep up with school and their parents can work.
